## OBJECTIVES

To reduce downtime and improve overall productivity

To increase the operators knowledge across the Post Press portfolio

To safely increase equipment performance

## CONTENTS

This course combines theoretical and practical applications to demonstrate Basic and Intermediate folding techniques.

## OBJECTIVES

- ➔ To reduce downtime and improve overall productivity
- ➔ To increase the operators knowledge across folders & guillotines
- ➔ To safely increase equipment performance

## THEORY

The focus of this workshop is to incorporate as much hands-on time as is possible to ensure all operators are as familiar with the correct operation of the equipment as time allows, however we will cover all safety aspects prior to any practical exercises being started.

- Practical Tasks
- Operation
- Maintenance
- Troubleshooting

## OTHER INFORMATION

Course literature and certification on completion is supplied by HEIDELBERG UK.
