

One for your diary:
Label Day on 28 September 2017.

HEIDELBERG

One event, two locations.

The whole world of label production.

Labels communicate a variety of information, from the brand through the manufacturer and product descriptions to the instructions for use. As varied as the information are the labels themselves.

Discover the entire range of wet glue, in-mould, or self-adhesive labels from Heidelberg at our Label Day.

We look forward to welcoming you at Heidelberg.

27 September 2017: Reception dinner

7 p.m., Print Media Academy, Heidelberg

28 September 2017: Label Day

9 a.m. – 4 p.m., Print Media Center Hall 11, Wiesloch-Walldorf

Visit the Labelexpo in Brussels to also experience the expertise Gallus has to offer in the production of self-adhesive labels.

Our topics

In-mould labels: Increased efficiency and process optimization

- Speedmaster XL106 LED UV for the food sector
- Speedmaster XL106 IML Performance Package for higher output
- Speedmaster XL 106-DD rotary die-cutter with innovative magnetic cylinder and waste extraction

Wet glue labels: Two efficient workflows

- Speedmaster XL 106-8 LYYL with inline finishing
- Speedmaster XL 75-8-LYYL Anicolor 2 with Multicolor workflow
- Polar System Pace 200 and Polar DC 11
- Easymatrix and Promatrix flatbed die-cutters

Reserve your ticket for the Label Day.
Your Heidelberg contact is waiting for your call.
