

## Saphira Pressroom Chemicals

HEIDELBERG

**For a perfect finish.** When it comes to services, your customers expect the best. To meet – or even surpass – these high expectations at all times, we offer a comprehensive range of high-quality pressroom chemicals, including washes, founts and auxiliaries. Saphira® offers the products best suited to the requirements of your press and pressroom. This ensures you are well-equipped to master any challenge and achieve first-class print results.

**Quality is crucial.** A consistently high level of quality and continuous product enhancement by the material manufacturer combine to offer a crucial advantage for your production operations. Efficient use of washes and cleaning agents helps you cut downtimes and achieve secure and stable production day after day.

**Selected for your production.** Saphira pressroom chemicals have been carefully selected and tested by our experts specifically for use on Heidelberg® presses. As a result, they minimize your press downtimes and boost productivity.

If you have any questions on the use or selection of pressroom materials, please do not hesitate to contact our experts.
