Service you can rely on

Keep your Speedmaster in perfect condition.
Rely on our Machine Check.

Did you know, there is a smart way of preventing downtime on your machine? Discover how we make it simple, effective and tailored just for you.

You depend on your machine every day...
... but do you really know its current condition? Hidden wear and unnoticed issues can lead to sudden breakdowns, costly downtime, and production delays. Ignoring these risks could put your entire operation at stake.

Machine Check from HEIDELBERG
Your Speedmaster® is the heart of your production, and even small issues can cause major disruptions. A Machine Check from HEIDELBERG® gives you full transparency on its condition through a visual inspection of all main components.

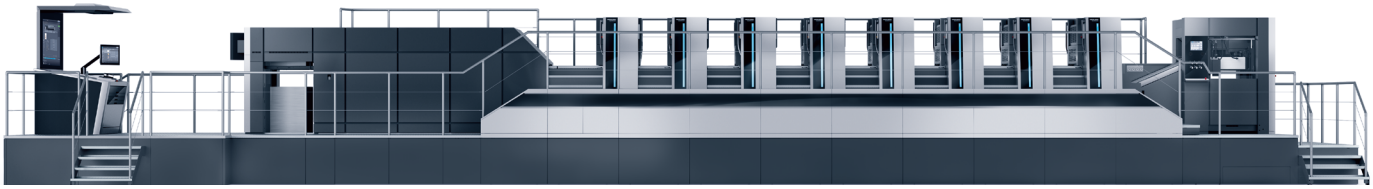
You receive a detailed report with findings and recommendations – helping you prevent downtime, ensure consistent quality and long-term performance and reliability.

heidelberg.com/en/preventive-packages

Benefits

- Avoid costly downtime by detecting hidden issues before they lead to unexpected breakdowns.
- Extend the lifetime of your machine through early identification of wear and potential risks.
- Maintain consistent, high-quality production by keeping your equipment in optimal condition.
- Plan ahead easily with tailored Preventive Packages based on your machine.

From insight to perfection: 4 steps to long-lasting machine stability

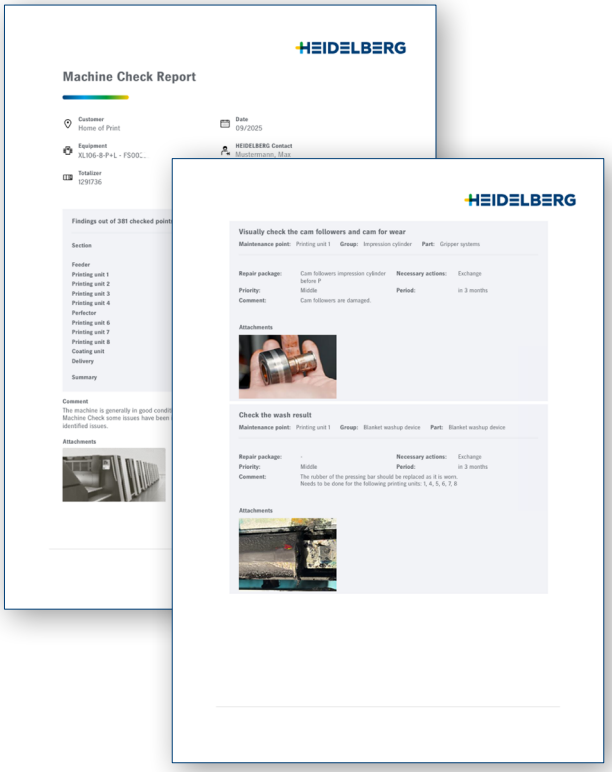


1 **Uncovering potential**
Insights driven by experience and technical expertise

2 **Onsite expertise**
Visual checks that capture what matters

3 **From insight to action**
Detailed report with customized packages and targeted actions

4 **Tailored execution**
When and how it works best for you



Detailed report for full transparency
After the Machine Check, you receive a comprehensive report that shows the condition of your machine.

It includes:
- Clear findings
- Prioritized actions with time estimates
- Practical recommendations

Giving you the insights you need to plan ahead with confidence.

Let's check it, fix it, and keep you printing at your best.
