## Special Offer for your Digital Flexibility.

Versafire EV provides you cost-efficient manufacture of short runs and print products that are difficult or expensive to produce using offset printing, Versafire EV combines the benefits of both offset and digital print methods to meet the requirements such as fast delivery times, printing variable data, 5th color for adding value to the print, and processing an amazingly wide range of materials.

With its outstanding quality and exceptional functions, the Versafire EV takes efficiency, reliability, and profitability to a whole new level.

- The closest color match to offset printing
- More advance with Prinect DFE, none can beat

Valid until 31st December 2021.
