+65-6664 2664 or speak to our Sales Representative  
to find out more details.**

**Benefits**

- Time and cost savings compared to manual wash cycles.
- Protect the surface structure of blankets and impression cylinder
- Ideal for short wash-up cycles
- The functional characteristics are geared to reliable operation and a high level of performance in our wash-up devices.
- Precise manufacture and quality assurance in terms of roll diameter, width, and tension (fixed production tolerances).
- Superb cloth's tear resistance and mechanical stability
- Limited swelling combined with good absorbency.
