

Percetakan Tenaga Sdn Bhd, Malaysia.

Speedmaster XL 75-LYY-7+LYYL-F/Speedmaster XL 162-6+L

“Customization provided by Heidelberg alongside Industrial 4.0 enables us to be a sustainable manufacturer”.

Mr. Raymond Kang
Executive Director of Percetakan Tenaga Sdn Bhd.

Percetakan Tenaga Sdn Bhd purchases the longest Heidelberg XL 75 duopress in Malaysia, Speedmaster XL 75-LYY-7+LYYL-F and recent investment on Speedmaster XL 162-6+L.

In 1987, Percetakan Tenaga Sdn Bhd started in business with 2 offset machines and a headcount of only 10 workers, including its Founder and current Managing Director, Mr. Jimmy Ong. With a passion for giving life to printing and packaging, along with a deep-rooted culture of commitment towards exceptional quality and total customer satisfaction has led them to strive for packaging excellence. Their team is committed to ensuring every request has been designed to be comprehensive and inclusive, starting from concept to the

final production, every step is carefully thought through from the point of the presentation, its usages, and its after-life.

Now a Global company with 666 employees, Percetakan Tenaga has become the leader in customized printing and packaging. With a competent workforce & state-of-the-art technology, They print for a wide range of industries from Food & Beverage, Healthcare, Electronics & Media, Beauty & Personal Care, Tobacco & Retail.

Raymond Kang, Executive Director of Percetakan Tenaga Sdn Bhd comments, “incorporating the very latest in automation and customization provided by Heidelberg alongside Industrial 4.0 enables us to be a sustainable manufacturer. Raymond added “Our level of commitment and performance over 30 years is recognized & rewarded by quality standard certification such as the ISO 9001: 2015, ISO 14001: 2015, Forest Stewardship Council Chain of Custody (FSC COC) & Goods Distribution Practice Medical Devices (GDPMD). We are also a proud member of the Supplier Ethical Data Exchange (SEDEX).

Investing in new Heidelberg Technology

To enable Percetakan Tenaga to produce the complex packaging work, they invested in the Heidelberg Speedmaster XL 75-LYY-7+LYYL-F duo press. The benefits they have achieved with the purchase have been very satisfying and enabled them to optimize their total production hours and reduce the number of processes. The printing of complex colours and embellishments in a single pass has made the press a one-stop machine. Additionally, with the Print Color Management, reproducing job after job is so much easier to do with print optimally matched to the objective results with minimal human intervention. The Heidelberg colorimetric system has also resulted in minimal wastage in a minimum of time with a minimum of waste sheets.

Percetakan Tenaga Sdn Bhd.

Global company with 666 employees, Percetakan Tenaga has become the leader.

They print for a wide range of industries from Food & Beverage, Healthcare, Electronics & Media, Beauty & Personal Care, Tobacco & Retail.

“ **The benefits we have achieved with the purchase have been very satisfying and enabled us to optimize our total production hours and reduce the number of processes.** ”

Raymond Kang

Following the success of the Duo Press and the trust Percetakan Tenaga Sdn Bhd had with Heidelberg, they made a bold investment purchasing a new Speedmaster XL 162-6+L in the pandemic year. It was successfully installed in October 2021. It was a plan pre-pandemic to support their larger printing projects. Having partnered with Heidelberg technology over the years, they made the decision rather comfortably as they were familiar and satisfied with the quality, experience, performance and reliability. Based on the Heidelberg experience they had no hesitation in proceeding with the investment.
