

Compose your print masterpiece with the Gallus One.

Powerful solo to harmonic ensemble

In today's ever-changing print industry, staying ahead means embracing flexibility and innovation to future-proof businesses for the long term. Unlock new opportunities with unparalleled ease and efficiency with the new "system to compose," concept. A game-changer for printers and converters, this cutting-edge solution empowers you to customize your machine configuration, workflow, and service options, allowing you to mix and match all of your relevant production processes to meet your specific needs.

Platform

The robust and reliable Gallus Labelmaster platform serves as the central "stage" for press performance and is the key element of the Gallus One. Available in 340 mm (13 in) or 430 mm (17 in) print widths.

Ink

The Gallus One is available with CMYK and optional white as well as color gamut extension with orange and violet ink.

Processing Units

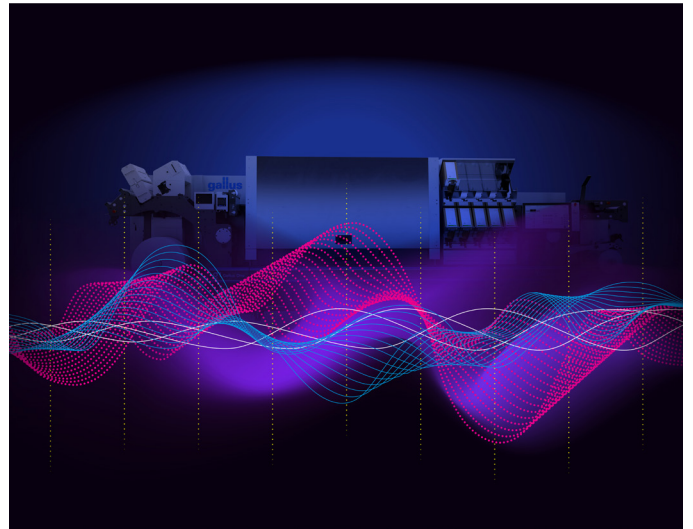

The Gallus One offers full adaptability to seamlessly add, remove or replace units upstream and downstream of the entire Gallus Labelmaster module family. This flexibility allows customer's existing machines to grow with their business instead of replacing.

Workflow

Gallus One is controlled and operated via HEIDELBERG Prinect® workflow for seamless operation. Prinect is also compatible with all other third-party workflow systems, so depending on your existing set-up, there is no need to switch.

Service

Service options can be easily added, removed or replaced, complemented by training programs tailored to each customer. Our global logistics centers located around the world ensure rapid delivery of the parts and services you need to stay productive.

Key Advantages of System to Compose

- *High level of flexibility and agility* in the units allows printers to tailor the system to their specific production needs.
- *Increased market responsiveness* enables businesses to adapt quickly to market changes and evolving consumer needs, ensuring they stay ahead of the competition.
- *Future-proof investments* through a high degree of modularity, enabling the long-term needs of businesses to be met and helping them to succeed in an ever-changing market environment.
