On-Site Evaluations

With over 25 years of specialized expertise in printing, plant management, and continuous improvement, our HEIDELBERG® Performance Advisors conduct a holistic analysis of your equipment and workflows to set data-driven, achievable goals that maximize your productivity.

- **Operations Overview** – We analyze a typical production day at your site and look to streamline material staging, scheduling, or general workflow processes.
- **Operator Performance** – By tracking KPIs, including makeready time, waste, net output, and speed, we identify specific areas for growth and provide a baseline to measure future success.

- **Overall Press Health** – Our Advisors evaluate press maintenance, chemistry performance, and mechanical integrity to ensure your hardware is capable of peak performance.
- **Actionable Strategy Plan** – Every evaluation concludes with a comprehensive roadmap. Whether you need specialized training, mechanical repairs, or consumable adjustments, we provide the data-supported solutions to help you succeed.
