

Global. Professional. Stress-free. Heidelberg Equipment Relocation Services.

We see your equipment all the way through.

And we mean any equipment to any location! Heidelberg Equipment Relocation Services offers professional planning, coordination, and support for equipment relocations internally or to a new facility. Heidelberg begins every project by learning about the goals of the customer and then develops an approach to best achieve those goals.

We carefully coordinate each step to ensure milestone moments in the relocation are met on schedule, and are ready to adapt to any last minute challenges. Extended warranties are available on all qualified mechanical and electrical parts installed by Heidelberg SystemService technicians and their partners.

“The most impressive part of the whole thing was we were never fully down in our production cycle...Heidelberg made the relocation process completely stress-free.”

Stilly McFadden, President
Toof American Digital Printing, Memphis, TN

When relocating complex and expensive assets of your company, you can trust Heidelberg to be your attentive and trusted partner.
